JIRAS Pendant Installation Manual

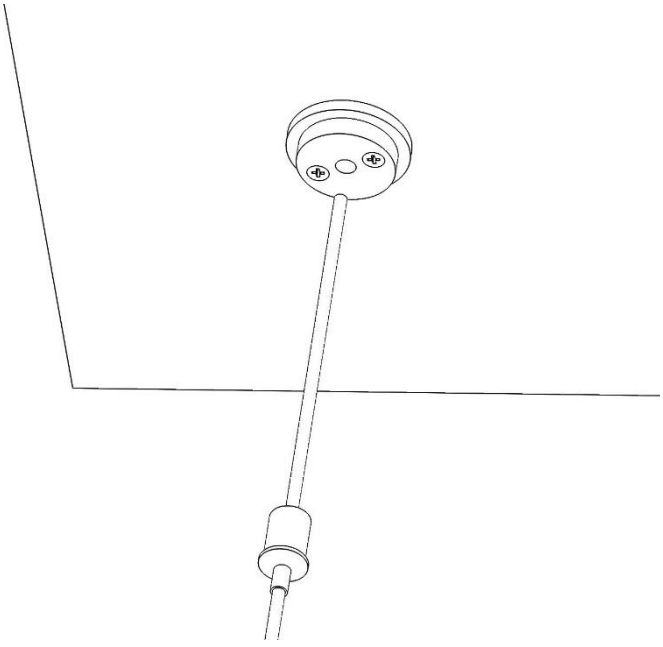

Step 1: Screw in the inner part with the ceiling fix using the M3 X 6mm self-tapping screw.

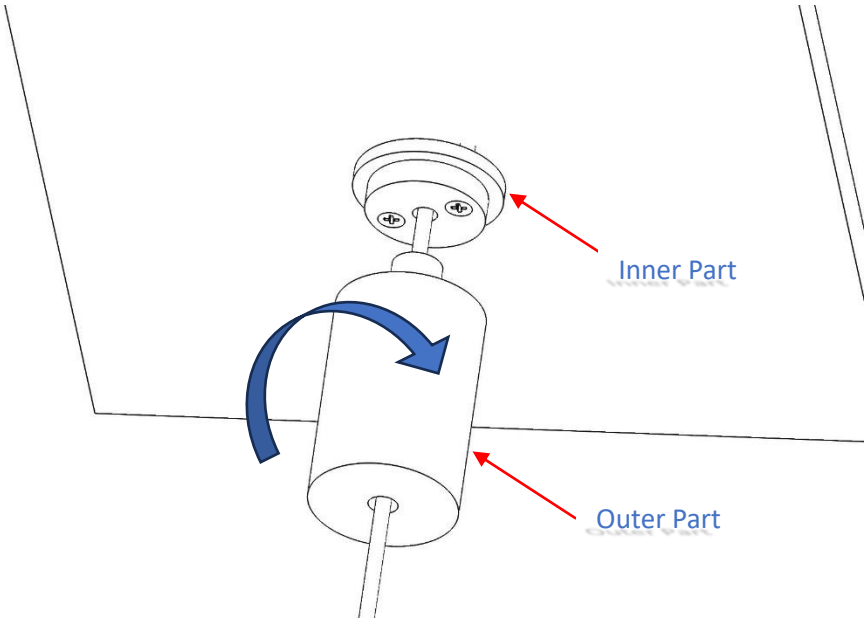

Step 2: Insert the wire into the wire gripper and secure it at the desired length.

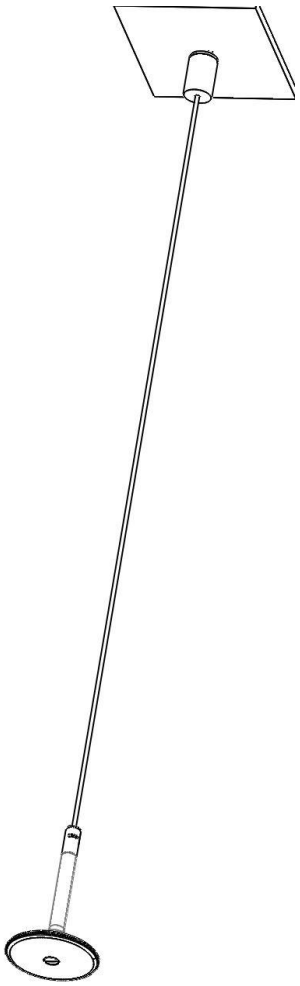

Step 3: Pass the wire through the centre hole and then attach it to the driver.

Step 4: Secure the outer part to the inner part using a threaded mechanism.

Step 5: Installation Complete!

Installation completed. The lights can be turned on!
